

2005 & UP MUSTANG
AND SHELBY AUTOMOBILES

Carroll Shelby

SUMMER 2008

MAKING THE COMMITMENT TO YOU!

Shelby Performance Parts, LLC is an official parts, distribution, sales and warehouse center for all Shelby Automotive parts and merchandising. Outlined below are responsibilities which Shelby Performance Parts, LLC must pursue to deserve your business.

QUALITY

Each part we produce or distribute must meet the quality standards you expect and deserve. We use only the highest esteemed manufacturers, mold makers, die casters and chrome platers. We know you demand quality and it's a priority to meet your needs everyday.

SELECTION

You will find we have compiled some of the most sought after parts for the 2005 and up Mustang. Shop with confidence as our descriptions and applications are accurate and concise.

SERVICE

As a valued Shelby Performance Parts, LLC customer, you deserve the most helpful and understanding staff in the industry. It is important to us that professionalism be presented in all aspects of customer service. From an order to a return, technical question to a problem, Shelby Performance Parts, LLC takes pride in assisting your needs.

FULFILLMENT

Maintaining a high fulfillment rate continues to be a priority at Shelby Performance Parts, LLC. However, please note that certain items in this catalog are special order only and others are generally drop shipped from manufacturer. Special Order items are usually available to ship within 7-14 days. As we continue to find new ways to utilize our state of the art computer network, we foresee our fill rates will only go up.

PRICE

Obviously price is an issue. In some cases, shopping around might save you a few dollars on lower quality products. We price competitively. Maintaining the highest quality parts is our #1 concern. **Prices subject to change without notice. Check website for current pricing. www.ShelbyPerformanceParts.com**

PRODUCT AND PRICING INFORMATION

We make every effort to produce a catalog with accurate information. Our goal is to provide the best quality product available, at the best value. Product descriptions, part numbers and specifications were accurate when printed, but may change without notice. Make sure to confirm availability and price when placing orders.

DELIVERY

Our goal is to ship all orders within 24 hours, however, that is not always possible. Please know that we take every order seriously and do our best to expedite it as quickly as possible. Last year we furthered our relationship with Americas largest carrier, U.P.S., by upgrading our computer system and networking directly with them. Processing, shipping and tracking was streamlined, while accuracy improved. Delivering your order is easier, faster and more precise than ever.

ARTWORK/PHOTOGRAPHY

All product photography and images contained in this publication are meant for reference only and may not be an accurate representation of the actual products (unless otherwise stated). For specific questions about build, fit, application, finish, etc., please contact your Shelby Performance Parts, LLC sales representative during normal business hours.

COPYRIGHT

All information contained in this publication, including all photos, descriptions, and statements, are the sole property of Shelby Performance Parts, LLC (unless otherwise stated). Reproduction of the information contained in this publication, in whole or in part, without prior written permission by an authorized representative of Shelby Performance Parts, LLC, is strictly prohibited. Shelby®, Carroll Shelby Signature, Initials, photograph & likeness®, Cobra®, The Cobra Snake®, GT-H™, GT-350®, GT-500®, GT-500KR™, and Super Snake® are registered trademarks of Carroll Shelby licensing, Inc. and are used by Shelby Performance Parts under license, 2008.

POLICIES

OUR GUARANTEE

Every item in this catalog is the very best quality available. If, for any reason, you are not satisfied with the quality of an item, please return it within thirty days from the invoice date for a full credit, exchange or refund. Some manufacturers issue their own warranties and in all cases these warranties will apply.

TERMS

All accounts are MasterCard, Visa or pre-pay only.

ORDERING

Please use our part numbers to ensure accuracy. Always include daytime phone number and email address when ordering. Automated ordering at www.shelbyperformanceparts.com is available twenty-four hours a day. Telephone orders may be placed Monday through Thursday, 8:00 a.m. until 5:00 p.m. and Friday, 8:00 a.m. until 4:30 p.m. Pacific Time. Orders may also be faxed at any time to 702-405-3509.

Special orders will be placed for items we can supply, but are not regular stocking items. You will need to fax an order to your salesperson detailing your specific need. In most cases, these orders need to be prepaid. In ALL cases, these items are not returnable.

Please note that when placing an order Online, actual inventory may differ from what is shown and the possibility of a backorder still exists, even if a part shows availability when order placed. See Backorder Section for more information on how backorders are handled.

BACKORDERS

While we strive to have as many items as possible in stock, some backorders will be unavoidable. We will automatically ship backorders that become available within 30 days of initial ship date of your order. If you wish to cancel a backorder you must do so via email or if cancelling by phone please get a cancellation #. We are not responsible for return freight of items we shipped out that you no longer wanted. For all Backorders involving Truck Freight, that are International or over 30 days old, you will be contacted first before shipping out your order to get approval. *Note: Backorders over 30 days will not be automatically cancelled, we will contact you when parts become available.*

SHIPPING

Regular orders are generally shipped next business day. Occasionally, we will hold an order an extra day or two, so we can ship a more complete order and save you freight costs. Orders received by fax or e-mail, after close of business, may not ship the following day. Expedited orders will leave the same day if placed before 12 noon. If not placed by 12 noon the order will leave the next day. On orders requiring Truck Freight, please allow at least 48 hours to ship. When possible we recommend shipping Truck Freight orders to a commercial address. This will reduce the freight bill.

All orders are shipped via UPS, unless specified otherwise. On all shipments, shipping charges will be added to your invoice accordingly. UPS orders are shipped with tracking numbers and are insured for full value. Contact Shelby Performance Parts, LLC Customer Service regarding damages and insurance claims. **All orders over \$50 will require a signature to ensure proof of delivery, and to protect your valuable Shelby parts.**

Shelby Performance Parts, LLC offers many levels of expedited service. These premium levels are charged a premium price. Some services are not available in all areas. Services offered include:

1. Red Label Early A.M. – Next business morning between 8 A.M. and 8:30 A.M.
2. Red Label – Next business day between 10:30 A.M. and 5:00 P.M.
3. Red Label Saver – Next business day between 3:00 P.M. and 5:00 P.M.
4. Red Label/Saturday Delivery – Saturday delivery of package. Saturday deliveries have additional surcharges. *Not available in all areas.*
5. Blue Label A.M. – Delivery of package by noon of second business day
6. Blue Label – Delivery of package by end of second business day
7. 3 Day Select – Delivery of package by end of third business day
8. 100 Weight – Special discounted billing rate for orders that weigh over 200 lbs by either physical weight, dimensional weight (OS1, OS2) or a combination of both.

All items exceeding size limitations for oversize 2 or very large orders of heavy items will ship via common carrier (Truck Freight).

The United States Postal Service may be requested as an alternate shipping method. The following guidelines apply to all shipments when the Postal Service is requested.

1. Shipping via the Postal Service is available on orders only when the customer specifically requests it.
2. Shelby Performance Parts, LLC must receive all orders no later than Tuesday 5 PM Pacific Time.
3. Orders placed by 5 PM on Tuesday will be processed and shipped no later than Thursday of the same week.
4. Shelby Performance Parts, LLC cannot be responsible for lost, damaged or delayed Postal Service shipments.
5. Postal Service shipments are unable to be tracked and have NO delivery guarantees.
6. Postal limits on size and weight vary, based on destination. Please check with your salesperson regarding these restrictions.

Orders may be picked-up at our facility with appropriate lead-time. All Will Call orders must be placed a minimum of 24 hours prior to the desired pick-up time. All Will Call orders must be picked up within 14 days of stated pick-up time or they will be returned to stock with a 20% restock fee being charged. All Will Call orders are subject to applicable Nevada State Tax Rates.

INTERNATIONAL ORDERS

All international orders must be pre-paid in U.S. currency by credit card, cashiers check or wire transfer.

For all orders being shipped to a holding station or freight forwarder, we must be provided with correct and complete address, contact person and phone and fax numbers for the facility. Our liability for shortages on orders of this type end when your agent signs for the delivery.

Items on international orders, including Mexico and Canada, that are out of stock will automatically be deleted from your order by our shipping department. This is due to varying customs regulations and shipping costs involved with shipping this type of order. Please note any out of stock items so you are able to reorder.

RETURNS AND EXCHANGE POLICY

All returns require an RMA number (Returned Materials Authorization). The RMA number must be displayed prominently on the shipping carton near the shipping label. Packages received with no RMA number on the carton may be refused by our Returns Department and returned via freight collect. All return/exchange shipments must be sent prepaid as we cannot accept return C.O.D's.

All returns are subject to a 20% restocking fee. Returned items must be uninstalled and in resalable condition. Electrical items are not returnable unless they are unopened and in their original packaging. If product must be repackaged, the return may be subject to an additional repackaging fee as well. If the item shows signs of being installed, or is not resalable, no credit will be received and the product will be returned freight collect.

Return freight charges will only be reimbursed if a defective or incorrect item was shipped to you. In all other instances, freight charges will not be reimbursed.

Returned goods will be accepted up to 30 days from date of invoice. Returns exceeding 30 days, but less than 60 days, will be charged a 20% restocking fee. Returns exceeding 60 days will be handled on a case-by-case basis.

In most cases, the customer will be asked to provide prepaid, return freight. In no instance will a call tag be issued for unwanted parts, regular return freight or damaged goods. Call tags will be issued only in the case of a sales or shipping error. Only prepaid shipments will be accepted.

Our shipping department strives to pack shipments safely and efficiently so your merchandise will arrive complete, in new, undamaged condition. Occasionally though, damages will occur in shipping. Please observe the following guidelines to ensure your claim can be processed quickly and successfully.

UPS shipments must be inspected within three days of receipt for damages. Should you incur damage, save all packaging materials and contact Shelby Performance Parts, LLC Customer Service. **Common carrier (truck) shipments and all sheet metal must be inspected upon arrival, and noted on Bill of Lading, to file a damage claim.**

Merchandise with this symbol  indicates it can only be shipped by truck.

ALL damages MUST be noted on the Bill of Lading.

SHELBY 5 & 6 SPEED SHIFTERS

These are the most advanced shifters on the market with no expense spared in engineering, materials, or function.

Our shifters feature:

- Main base and strut bar are machined from 6061-T6 Billet aluminum and anodized for corrosion protection.
- High durometer polyurethane injected bushings isolate noise and vibration for precision feel and comfort.
- High alloy heat treated and nickel plated pivot lever gives the ultimate in strength and durability which pivots in a custom injected delrin pivot cup. Unlike the competition this prevents wear in the area that sees the most contact and also further reduces stick vibration and noise.
- Spring tension prevents mis-shifts by forcing you into 3rd gear.
- Unique adjustable cam shift stops provide a positive stop to prevent over travel in the linkage that causes damage to the transmission under hard usage.
- Revised pivot ratio for shorter, faster throws and quicker shifts.
- Exclusive Light weight forged 7075 aluminum shift lever with MIL spec radius-root threads for uncompromised strength.
- Rear mount shift lever prevents putting mount bolts in shear.

Additional features for our 6-speed Shifter:

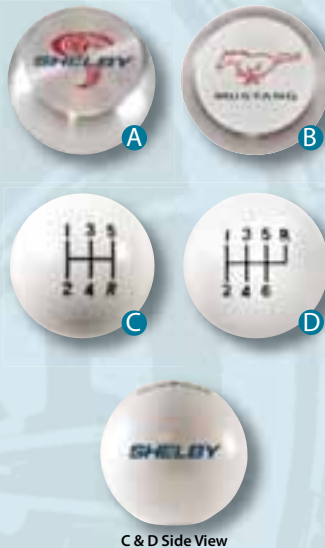

- Only one on the market with 2 transmission support bars as the factory intended.
- Only one on the market with 2 shift stops incorporated.

Description	Fitment	Part Number	Price	
5-SPEED SHIFTER	05-08 Mustang GT with 5-speed manual	7S3Z-7210-F5	\$299.95	COMING SOON! COMING SOON!
6-SPEED SHIFTER	05-08 Shelby GT500 with 6-speed manual	7S3Z-7210-F6	\$349.95	

SHELBY & MUSTANG LOGO SHIFT KNOBS

The perfect way to "top" our new Shelby shifter assemblies is to add one of our beautiful shift knobs. Our new resin shift knobs are solid white resin, not painted and cleared like some others. We have polished them with a smooth finish for a great feel. They feature laser etched shift patterns and logos that are paint filled to enhance the details. We have also made our two most popular billet aluminum shift knobs with the proper threads to our Shelby shifters. Choose Mustang or Shelby branded. Both are precision machined and beautifully brushed and then clear anodized to enhance the interior of any Shelby or Mustang. The highly detailed, stamped logos are paint filled. All of our shift knobs include a stainless steel locking nut. Either resin or billet. Both have a great feel with great looks. Whichever you pick, you can't go wrong with Shelby Performance shift knobs. **Note: These will not fit stock shifters. See page #34 for stock shifter knobs.**

Description	Part Number	Price
A SHELBY - BILLET ALUMINUM 12MM X 1.75 THREAD	5S3Z-7213-BLR	\$49.99
B MUSTANG - BILLET ALUMINUM 12MM X 1.75 THREAD	5M3Z-7213-BLR	\$49.99

PERFORMANCE

FORD RACING SUPERCHARGERS

Ford Racing Performance Parts (FRPP) offers several Super Charger Kits for the '05-'08 V8 Mustangs. These have been specifically designed to offer the utmost in reliability, performance and drive-ability. This Non Intercooled System utilizes their latest twin-screw super charger, the W140ax. It produces over 50% power increase across the entire RPM range with instant Boost, and there is zero lag time unlike some other Super Chargers.

Kit includes: new aluminum intake manifold, 34lb/hr fuel injectors, Ford Racing Spark Plugs, PCM Flash Tool, 95mm MAF, cold air induction system with massive S&B filter, billet inlet venture for increased air speeds as well as an oversized air by pass system. This along with the Whipple-FRPP PCM calibration kit designed in conjunction with Ford Racing engineers to properly reconfigure Fuel, Spark, Knock Detection, Torque Management, Transmission and Throttle Controls. All of this makes for a very street-able daily driver, as well as a tire shredding street machine. This system pumps out 400HP with 5psi of Boost on 93 octane fuel. Manual and Automatic transmission. Available in Black or Polished.

Description	Part Number	Price
05-06 4.6 LITER V8 BLACK W/O INTERCOOLER	M-6066-M463V	\$5,089.00
05-06 4.6 LITER V8 POLISHED W/O INTERCOOLER	M-6066-M463P	\$5,475.00
07-08 4.6 LITER V8 BLACK W/O INTERCOOLER	M-6066-M463V7	\$5,089.00

Still need more power? Don't worry, they also offer the HO Intercooled System that pumps out an awesome 500HP and 470 pounds of torque with 11psi of Boost on 93 octane fuel. **Kit includes:** all the above with the addition of a massive aluminum air-to-water intercooler, the largest Fluidyne heat exchanger available for this application, huge 38lb/hr fuel injectors and a Shelby GT500 high flow fuel pump to keep up with everything. This incredible HO system produces nearly 80% more power than stock across the entire RPM range. Manual transmission only. Available in Black or Polished. **Note: Some additional tuning may be required on some models. Please call an SPP tech for applications.**

KENNE BELL TWIN SCREW SUPERCHARGERS

KB-54-TSS-P

KB-46-TSS-P

For the Shelby or Mustang GT owner that needs more horsepower we are now proud to offer the Shelby Kenne Bell Twin Screw Supercharger kits. Offered exclusively by Shelby as part of the Super Snake upgrade for the GT500, you have the choice to choose your horse power gain. The GT500 kit features a "Mammoth" 1000hp+ inlet designed for use with dual 75mm throttle body which is included. With the 2.8H "Big Bore" billet twin screw, billet external bypass and 10 rib pulley an increase between 125-357hp can be achieved. The 4.6L GT kit is the largest positive displacement unit at 2.6L and capable of creating well north of 500hp. Fitting under the stock hood (minor notch on the X-brace required) and with no need for headers, cam, porting, etc., these kits offer the most ideal choice in overall power and performance. No need for larger fuel pumps, fuel rails, fuel lines, etc. With the exclusive dual Boost-A-Pump fuel flow, SCT Flash Tuner and MAF Extender, included in each Shelby Kenne Bell Twin Screw Supercharger kit, you now can maximize performance with a true "Race Tune" calibration. To top it all off, each kit is designed to operate using stock emission components and meets most smog requirements. A quick and easy install makes each Shelby Kenne Bell Twin Screw Supercharger kit a practical investment in maximizing the overall performance of your Shelby or Mustang GT. The GT500 Kenne Bell supercharger with Shelby logos is available exclusively from Shelby Performance Parts.

PAXTON SUPERCHARGERS

Nobody has been making Mustangs go faster longer than Paxton. As most of you know, Paxton Superchargers were Original Equipment on the early model Shelby Automobiles. So it is only fitting that Paxton Superchargers are the original equipment on the CS6 and CS8 Shelby's that are being produced today. Paxton has made significant improvements since the mid Sixties. Their gear driven NOVI 1200 centrifugal Supercharger provides unmatched reliability with incredible horse power and torque gains. This technologically advanced Supercharger with its high efficiency impeller and housing design has been proven on streets and race tracks around the world for years, and is well know for its durability and performance. With the racing heritage that Shelby and Paxton share, and the fact that on 91 octane pump gas, the V8 version produces 462HP with 419 pounds of Torque and up to 350 HP on the V6 version. This is a natural choice if you are looking to add something "special" under the hood. Features Shelby logo with unique serial number on Super Charger, which is an exclusive from us here at Shelby Performance Parts. Available in Satin or Polished aluminum. 3 year unlimited mileage warranty on Supercharger, the best in the business. Perfect post title option for your Shelby GT. **This Supercharger is a Shelby only exclusive.**

Kit includes: NOVI 1200 Supercharger, high capacity fuel injectors, high flow fuel pump, DiabloSport handheld programmer to re-flash factory processor, integrated air/water cooler, Billet Aluminum mounting bracket, idler, drive belt, all necessary mounting hardware and detailed instructions. *Note: Some additional tuning may be required on some models. Please call an SPP tech for applications.*

Description	Part Number	Price
05-06 V6 PAXTON SUPERCHARGER – SATIN	1001857	\$4,499.99
05-06 V6 PAXTON SUPERCHARGER – POLISHED	1001857-P	\$4,699.99
05-06 V8 PAXTON SUPERCHARGER – SATIN	1001860	\$5,099.99

07 V8 PAXTON SUPERCHARGER – POLISHED	1001859-P	\$5,299.99

8.8 INCH REAR END

If you are adding horsepower to your V6 Mustang, then this rear end is a must. Designed to withstand the extra horsepower of a supercharger. Included with the rear end is a set of 3.55 gears and a limited slip to keep your mustang locked to the road. This is the rear end put in the Shelby CS6 supercharged cars. These are factory "take-offs" in like new condition. **Original equipment on GT 5-speeds.**

Description	Part #	Price
8.8" REAR END	6R33-4001-EC	\$949.99

HIGH PERFORMANCE RING AND PINION SETS

This is one way to improve all around performance, especially off the line performance on any car whether it is bone stock Mustang or a Supercharged Shelby.

Stock Production Mustangs with automatic transmissions have 3.31 Ratio and 5 speeds have 3.55 ratio.

3.73's are recommended as the best all-around performance gear ratio for drivability. 4.10 generally is not recommended for extended high speed driving. 4.10 gear ratios require a special Carrier Cross Shaft to clear the larger diameter gears. May not fit stock rear cover.

Description	Part #	Price
05-08 V8 - 3.55 RATIO	F-8.8-355	\$194.95
05-08 V8 - 3.73 RATIO	F-8.8-373	\$194.95
05-08 V8 - 4.10 RATIO	F-8.8-410	\$194.95

SPECIAL CARRIER CROSS SHAFT

This shaft is used in 4.10 ratio & numerically higher.

Description	Part #	Price
05-08 V8 - 4.10 RATIO	F-8.8-CSL	\$41.95

PERFORMANCE

BORLA PERFORMANCE EXHAUST

Borla Performance Industries has been a favorite among Mustang owners for almost 30 years. 2005-2008 owners are no different. 2005 & Up systems have received praise for both exceptional quality and performance characteristics from several major players in all Racing Venues, down to the average car enthusiast, just trying to make his stock Mustang sound better and go faster.

Borla has designed two different systems to bolt directly to the factory H pipe. Choose from either their "tried and true" traditional turbo style mufflers that offer improved performance along with a nice performance sound that Borla is known for, or their relatively new smaller "S-Type" muffler which offers a higher flow rate with a distinct aggressive sound. Both Mufflers have a high quality 3" Borla Stainless Exhaust Tip and both systems are made from the highest quality aircraft grade T-304 Stainless Steel. T-304 has the highest Chromium Content making it the most resistant to corrosion therefore creating a product that not only will last for years but looks good as well. Borla is so confident with their product they offer a Million Mile warranty. These systems also feature ultra smooth mandrel bent tubing which ensures maximum flow and power, all welded construction, warp free flanges and a precision computer controlled CNC for an accurate fit and a trouble free installation. Borla Cat-Back Exhaust Systems typically add 7%-15% Horsepower depending on fuel management system used.

Please note that not all Stainless Steel is created equal so beware of cheaper brands that utilize low grades of Stainless Steel such as T-409 which will corrode much quicker. If it is not T-304 you probably do not want to put it on your prized Pony.

Cat-Back Systems

Description	Part Number	Price
05-08 4.0 V6 TURBO MUFFLERS + X PIPE	BPI-140176	\$1,099.99
05-08 4.6 GT TURBO MUFFLERS	BPI-140209	\$849.99

JBA STAINLESS HEADERS & EXHAUST

JBA is one of the most recognized names in the Mustang world for Headers and exhaust systems. There is a good reason for it. Their quality products have been installed for years on all years of Mustangs, and they are once again leading the way with the new Mustangs.

05-08 MUSTANG GT PARTS

50 State Smog legal Cat4ward® headers for Mustang GT

JBA is proud to announce the release of new 50 state smog legal Cat4ward® headers for the Mustang GT. These new V8 headers feature JBA's standard heavy-duty construction and patented technology to deliver the performance and reliability you expect. Beginning with oversized "D" shaped ports for the new 3v heads and smooth flowing mandrel-bent tubing - these headers open up the exhaust for increased performance and efficiency without compromising the factory emission equipment. Extra thick 3/8" CNC laser-cut flanges ensure a tight seal and trouble free performance without leaks from warping. Each kit comes complete with quality hardware and instructions for a complete installation.

Long Tube "Off Road" Header with 1-5/8" Primaries for Mustang GT

For maximum performance gains on your new Mustang GT, JBA has a complete stainless steel long tube header system that delivers more power and torque than any other header system. These new headers take full advantage of the redesigned chassis and new engine. The trick "D" port aluminum heads on the 4.6L 3v can breathe easier through JBA's 1-5/8" mandrel-bent stainless steel primaries freeing up massive amounts of horsepower and torque. JBA's one-piece 3/8" CNC laser-cut flanges make a tight and durable seal for trouble-free performance. The pipes terminate in a 9" long 2.5inch collector that houses JBA's patented Firecone® merge device for enhanced scavenging of exhaust gasses. These headers fit perfectly inside the frame with no loss in ground clearance. *For off-road use only. **Not legal for use on emission controlled vehicles.**

JBA Performance Exhaust Systems: 05-08 Ford Mustang GT/GT500 Axle Back

When Ford designed the new Mustang - they injected a lot of the classic Mustang legend and style. The factory Mustang sound system uses 2-1/2" tubing that flows reasonably well but the mufflers choke up the performance with back pressure because they are designed to quiet the car. JBA has the solution with an easy to install axle-back exhaust system with the true "DNA" sound of a Mustang. It features JBA's fully welded chamber style mufflers and chrome plated stainless steel tips. Hangers are pre welded in place to use the factory mounts. With a slip fit connection - this system can be installed in less than 1 hour. Get the power, sound and quality you need with a JBA performance exhaust!

JBA STAINLESS HEADERS & EXHAUST (CONTINUED)

05-08 MUSTANG V6 4.0 PARTS

50 State Smog legal* Cat4ward® stainless headers for Mustang 4.0 V6

Make your new V6 Mustang run like a GT with JBA's new JBA Cat4ward® headers. The new 4.0L V6 is a big improvement over the old 3.8L with increased power and torque. Combined with the new Mustang chassis and transmissions - the base Mustang feels almost as strong as some of the older GTs. But the restrictive factory exhaust manifolds hold it back. JBA has extensive experience with the 4.0L V6 and set out to build headers that will open up the exhaust flow to allow the engine to breathe more efficiently. The result is a new Cat4ward® header system that features JBA's heavy-duty construction and patented technology to deliver the performance and reliability you expect. Starting with an oversized exhaust port and smooth flowing mandrel-bent tubing - these headers open up the exhaust for increased performance and efficiency without compromising the factory emission equipment. Extra thick 3/8" CNC laser-cut flanges ensure a tight seal and trouble free performance without leaks from warping. Each kit comes complete with quality hardware, gaskets and instructions for a complete installation.

JBA Performance Exhaust Systems for Mustang 4.0L V6

Y-pipe and H-pipe

Every Mustang owner craves the power and sound of a V8. JBA has the solution for V6 Mustangs with easy to install exhaust systems that deliver a powerful sound that won't be confused with a sport compact. JBA's new dual exit exhaust system will have you running with the V8's. This kit features JBA's fully welded chamber style mufflers, high flow mandrel-bent tubing, hangers and hardware and great looking 3" chrome plated stainless steel tips. Get power, sound and quality with a JBA performance exhaust!

JBA-40-2630

07-08 GT500

3"-3" Exhaust with Shelby Tip

Nothing says "power" like a great sounding complete 3" JBA exhaust system. The GT500s are quick but the stock 2-1/2" exhaust keeps the 5.4L 4v from making maximum power and is far too mellow. JBA spent countless hours testing and tuning to engineer the perfect exhaust for the GT500. The end result is an ultra high flow system that makes real power with the authentic sound of a true muscle car without annoying interior resonance common on other systems. Each JBA Shelby exhaust features stainless steel smooth flowing mandrel-bent tubing, high quality hardware, fully welded JBA stainless mufflers and finish with great looking polished and chrome plated Shelby by JBA stainless steel rolled lip tips. Not only do these systems sound awesome but they look great too. *For off-road use only. Not legal for use on emission controlled vehicles. Requires 3" X-pipe.

JBA-40-2635-1

3" X-pipe w/ cats – Hi-Flow with manifolds

If you're looking to get even more power from your GT500, check out these high-flow 3" midXpipes™ from JBA. These precision built components are engineered to deliver a huge increase in performance for the re-born Shelby legend with a powerful exhaust note. The new midXpipes™ feature mandrel-bent stainless steel tubing, metal substrate high flow stainless steel catalytic converters, factory style flanges and hangers, and provisions for O2 sensors in the stock locations. Once installed, these components open up the exhaust system reducing backpressure and enabling substantial performance gains and a healthy change in the exhaust note. Installation can be done in about one hour with common tools. These midXpipes™ are designed to work in conjunction with factory manifolds with the JBA 3" Stainless steel GT500 exhaust.

07-08 GT500 OPTIONAL PARTS

Long Tube 3" Collector with 1-3/4" Primaries Off Road Header

For maximum performance gains on your Shelby Super Snake, JBA has created a complete stainless steel long tube header system that delivers more power and torque than any other production header system available. These new big tubes from JBA take full advantage of the redesigned chassis and 5.4L engine. The trick oval port aluminum heads on the 5.4L 4v can breathe easier through JBA's 1-3/4" mandrel-bent stainless steel primaries which free up massive amounts of horsepower and torque. JBA's one-piece 3/8" CNC laser-cut flanges make a tight and durable seal for trouble-free performance. The pipes terminate in a 9" long collector that houses JBA's patented Firecone® merge device for enhanced scavenging of exhaust gasses. These headers fit perfectly inside the frame with no loss in ground clearance. *For off-road use only. Not legal for use on emission controlled vehicles.

PERFORMANCE

PERFORMANCE BRAKE SYSTEMS

We know that to build a true performance car – the braking system can not be ignored. In all forms of racing having a superior braking system is critical to winning races and staying safe. We feel the same should apply to cars driven hard on the streets, so we went straight to the experts in Braking Systems. Baer Brakes and Shelby Performance Parts are proud to offer several high performance braking systems.

SHELBY GT-PLUS BRAKE SYSTEM

BY BAER BRAKES

The GT-Plus system for the front brakes is original equipment on both the CS6 and CS8 Shelby's! This system includes 2 huge 14" cross drilled and slotted 2 piece zinc plated rotors, large PBR 2 piston aluminum front calipers, oversized performance metallic pads, caliper relocating brackets, brake hoses and all necessary mounting hardware and instructions. This system greatly reduces stopping distance. Also reduces brake fade and overheated rotors common on stock Mustang brakes in abusive situations. Worthy of the Shelby Logo engraved on each caliper. Fits all V8 cars and V6 cars that have the optional ABS. Requires 18" or larger rims. Note: certain spoke designs may not allow enough clearance for these oversized calipers. Caliper fitment templates available online. Please inquire.

Description	Part Number	Price
05-08 GT-PLUS FRONT SYSTEM	BBS-4261111	\$1,394.99 Kit

SHELBY PRO-PLUS BRAKE SYSTEM

BY BAER BRAKES

Shelby PRO-PLUS systems feature Baer's all new "6P-series" cast aluminum six-piston radial mount calipers, ceramic SPORT-TOURING compound pads, 14 x 1.15-inch two-piece rotors and DOT legal braided stainless steel, Teflon® lined hoses and all attendant hardware. Baer's rigid quality standards together with these elements combine to offer the lightest 14-inch 6-piston available for the S197 Mustang, as well as the most performance per dollar of any system in this segment. A perfect compliment for your Shelby-GT or late model Mustang. Features internal crossovers fore and aft to allow a single bleeder located on inboard side of caliper. Pad is common to Corvette C5/C6, so service or race pads are widely available from thousands of sources. *Rear Shelby Pro-Plus 6-piston upgrade kits will be available soon. Please call one of our sales associate for application and availability.*

SHELBY EXTREME-PLUS BRAKE SYSTEM

BY BAER BRAKES

Choose from
6 colors!

For those of you that must have the very best money can buy we also offer the EXTREME - PLUS front brake system. This complete system features the same extra large 14" cross drilled and slotted 2 piece zinc plated rotors as the GT - Plus, also includes a pair of huge PBR 6 piston calipers housing Baer's own Sport Touring Pads. These low inertia aluminum monoblock calipers deliver unparalleled performance through a rigid one piece design – featuring precision CNC machined bores that house 6 large stainless steel pistons, coupled with specifically designed seals to withstand the extreme high temperatures usually witnessed in actual racing applications. These are the ultimate in braking performance, boldly powder coated with our Shelby name proudly engraved on the side. These will certainly let everyone know you take Braking Performance very seriously. Fits all V8 cars and V6 cars that have the optional ABS. Requires 18" or larger rims. Note: even with 18" rim diameter, certain rim and spoke designs will not clear these huge calipers. Fits our 20" Razors and 20" Alcoas also 18" GT500. Caliper Fitment templates are available online to download and recommended. Please inquire. This kit is available in a variety of caliper color combinations so you can get that custom look you want. *Rear Shelby Extreme-Plus 6-piston upgrade kits will be available soon. Please call one of our sales associate for application and availability.*

FRONT & REAR ROTOR CONVERSION SYSTEM

BY BAER BRAKES

EradiSpeed rotors are our replacement kits for those wishing to upgrade their braking without purchasing a complete system. Featuring the dynamic appearance of cross-drilled, slotted and zinc-coated surfaces, EradiSpeed units are also purpose-cast with quality iron materials for performance far beyond the factory units they replace. Furthermore, the curve-vented design also provides greater airflow and heat dissipation. These kits include matching 14" cross drilled and slotted rotors, caliper relocating brackets and necessary hardware. Fits all cars except V6 cars that do not have the optional ABS. Requires 18" or larger Rims.

Description	Part Number	Price
05-08 GT/V6 FRONT ROTORS	BBS-2261026	\$755.00 Kit

BRAKE COOLING

Coming soon we will have everything you need to keep your Shelby GT or GT500 brakes running cool.

HOSE & BACKING PLATES 05-08 MUSTANG UNIVERSAL KIT

This kit includes heat resistant silicone-coated, fiberglass ducting hose and 2 high-temperature, composite-plastic-injected backing plates that are designed to channel air directly through the center of the rotor, exchanging heat evenly while cooling the bearing. This is unlike our competitors that just force air onto the rotor face. Mounting hardware included.

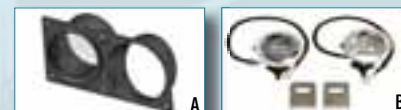

Description	Fitment	Part Number	Price	Available
KIT W/ 2.5" HOSE	05-08 GT500 & Mustang GT	5R3Z-2K004/5-2K	\$179.95 Kit	Coming Soon

HUSHMAT PREMIUM DAMPING

With all the additional power from adding Shelby Performance to your Mustang or Shelby, you will want to quiet your ride. Eliminate road noise, vibration and add thermal insulation with premium damping products from Hushmat. Hushmat offers more than 18 years in automotive OEM experience!

HushMatUltra features a 1/8" thick and 0.53 lb per square foot pressure-sensitive, constrained-layer damping material which has excellent adhesion for many difficult to-bond-to substrates such as oily steel, automotive E-coat, primers, finishes, laminated and chopper-gun fiberglass and many plastics, including polypropylene.

HushMat Megabond Silencer is the perfect material to use to reduce heat transfer from your big engine, drive train or exhaust and reduces the high frequency noise caused by road surface variation (tire noise), engine noise, and wind noise passing behind trim panels. Aggressive butyl based adhesive on back for one step peel and stick application. Stick to sheet metal or fiberglass vehicle surface or directly onto aluminum surface of HushMat Ultra vibration damping material for the ultimate COOL & QUIET interior.

PERFORMANCE SUSPENSION SYSTEMS

We went to the "Best in the Business" for Suspension upgrades. Together, Shelby and Eibach offer two complete suspension systems or you can pick and choose individual components. Look for our "Shelby" branded components, coming soon.

PRO-SYSTEM PLUS SUSPENSION KIT

The **Pro-System Plus®** Kit will lower the car approximately 1.5" and greatly improve turn-in response, increase cornering speed and reduce body roll. It will turn your Mustang into a true sports car. It will also give the car a much more aggressive stance to match its new handling characteristics. Eliminates excessive wheel well clearance. This is an excellent system and is recommended for all except the serious hard core track or road racer. Kit includes oversized front and rear sway bars, high performance progressive rate springs, matching Bump stops, Eibach's own race inspired shocks and struts which were designed to provide maximum control in all situations and still offer excellent ride comfort. All this backed up with Eibach's Million Mile Warranty. Sway bars and Coil Springs are Powder Coated to look great for many years.

Description	Part Number	Price
2005-2008 4.0 LITER V-6	ES-35100.680	\$1,099.99
2005-2008 4.6 LITER V8	ES-35101.680	\$1,099.99

SPORTLINE PLUS SUSPENSION KIT

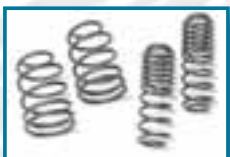

For the ultimate in handling we also offer the **Sportline Plus®** Kit which is the same kit as above but features Eibach's precision engineered progressive rate Sportline springs. These will lower your car approximately 2" and provided true Race-Car like handling while offering the best possible ride. **Note:** this Kit does offer a slightly harsher ride quality than the above Pro-System Plus® Kit, as it was created for the extreme enthusiast.

PERFORMANCE

COMING SOON! FROM SHELBY PERFORMANCE PARTS

We have been busy working on a number of superior suspension components! To wet your appetite for the ultimate in race suspension, the following 2 pages is a taste of what you can look forward to. We are currently testing these products both on the street and on the track to ensure the finest parts available.

SHELBY SUSPENSION KIT

Comparable to our Pro-System Plus® Suspension Kit, this complete setup features a combination of Eibach and our own in-house engineering to create the perfect setup for your Shelby. This kit features our own Shelby logo.

Description	Part Number
07-08 GT500 5.4 LITER V8	SPP-35115.680

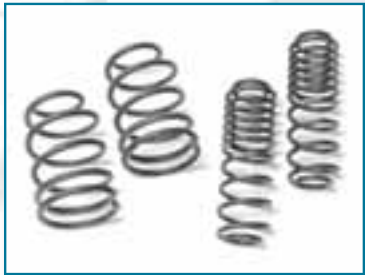

SHELBY PRO-DAMPER

These high-performance struts and shocks are similar to our Pro-Damper Kit and feature our own Shelby logo.

Description	Part Number
05-08 4.6 & 5.4 LITER V8	SPP-35101.840

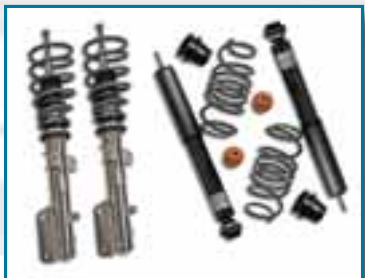

SHELBY PRO-KIT SPRINGS

These springs are similar to our High-Performance, Pro-Kit Springs and feature our own Shelby logo.

Description	Part Number
07-08 GT500 5.4 LITER V8	SPP-35101.140

SHELBY PRO STREET-S

Comparable to our Mustang Pro Street-S, this kit features our own Shelby logo.

Description	Part Number
06-08 GT500 5.4 LITER V8	SPP-35100.71

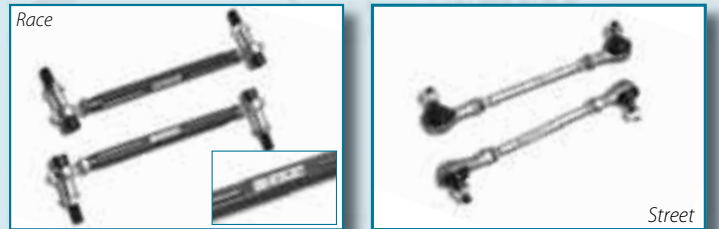

SHELBY SWAY BARS

Our sway bar kit adds stiffness to your suspension to prevent excessive body roll associated with your factory bars making your car handle in a more precise and predictable manner. The kit includes larger 35mm and 23mm front and rear bars respectively along with upgraded polyurethane bushings and 7075-T6 billet aluminum rear H-beam design chassis links. Both bars are cold formed from high alloy steel and heat treated to stringent specifications. Front bar has three end link mounting points for a wide range of tuning. Bar are powdercoated graphite grey. **4.6 only.**

Available	Description	Part Number
COMING SOON	FRONT SWAY BAR SET	553Z-5482
COMING SOON	REAR SWAY BAR SET	553Z-5486

SHELBY SWAY BAR END LINKS

Compliment your sway bars with our adjustable front sway bar end links. They allow you to position your sway bar for optimum tuning for both street and racing applications. Stronger than the non-adjustable factory links. We offer a street version with sealed ball joints and a high alloy 4142 steel billet machined adjustment shaft or a race version that is lighter than the factory link with PTFE lined rod ends and a 7075-T6 billet machined adjusting sleeve. Highly recommended for lowered vehicles.

Description	Part Number	Price
05-08 STREET	553Z-5A486-S	\$159.95
05-08 RACE	553Z-5A486-R	\$179.95

COMING SOON! (CONTINUED)

REAR CONTROL ARMS

For any kind of performance orientated driving you need to replace the thin stamped factory control arms to eliminate flex and bushing deflection that can cause erratic changes in your handling. Once again, only the highest grade of materials and hardware is used on SPP suspension components for uncompromised function and safety. All fabricated bars are made from 35mm OD DOM 4130 chromoly tubing, tig welded, stress relieved, and heat treated to stringent specifications. All adjusters are made from 4142 high alloy steel. Our aluminum lower control arms are the strongest on the market, finish machined from forged 7075 Aluminum and anodized for corrosion protection. Our adjustable control arms allow you to fine tune your rear suspension alignment and pinion angle on car with right and left hand threads. All styles of control arms come with a combination of any of the following bushings: high durometer greasible polyurethane bushings, self-lubricating delrin bushings, high grade 3/4" chromoly self lubricating Teflon/PTFE lined race rod end or self contained self lubricating Teflon/PTFE lined race spherical bearing for the ultimate in variety to match your specific vehicle purpose and handling style. Our steel bars are powdercoated in a durable graphite grey finish. Eliminate wheel hop, axle wrap, and maintain precision articulation for predicable handling and stability.

UPPER CONTROL ARMS

REAR UPPER CONTROL ARM BRACKET

The factory upper control arm bracket is a common point of deflection and failure in performance applications since the upper third link sees a majority of the load. We have eliminated that problem with our heavy duty mount, fabricated from formed chromoly sheet, tig welded, and heat treated. Robust design is twice the thickness of the factory piece. Two mount locations allow for even more suspension adjustment and less pinion angle change throughout the travel. Powder coated in grey finish. A perfect compliment to our upper control arms.

Description	Part Number	Price
REAR UPPER CONTROL ARM BRACKET	5S3Z-5500-MNT	\$94.95

PANHARD BAR

Guaranteed to be the strongest on the market. Only the best materials, heat treat processes, and high grade hardware are used on our suspension products. Fabricated from tig welded 35mm OD DOM chromoly steel that is stress relieved and heat treated AFTER welding to give the ultimate in strength. Don't be fooled by other's chromoly bars that have not undergone strict post welding treatments. Replaces your weak small tube, rubber bushed factory unit with our superior chromoly unit that uses high durometer polyurethane bushings for the street version or High strength rod ends for heavy duty applications. Rod ends are the strongest on the market made from chromoly steel with self lubricating Teflon/Kevlar races. Re-center your rearend on your lowered vehicle with the adjustable street or heavy duty versions of our panhard bar and fit the largest tires possible. Right hand and left hand threads on adjustable units allow on car adjustment. Finished in a durable graphite gray powdercoat.

Panhard Bar	Part Number	Price
ADJUSTABLE W/ POLY. BUSHINGS	5S3Z-4264-BPP	\$169.95
ADJUSTABLE W/ RACE ROD ENDS	5S3Z-4264-BRRE	\$189.95
PANHARD BAR BODY BRACE	5S3Z-4264-B	\$74.95

BUMPSTEER TIE ROD ADJUSTER

Replace your factory tie-rod with our bolt in adjusters to easily fine tune out bumpsteer that causes unwanted handling characteristics. Constructed of 7075-T6 billet aluminum adjusters with heavy duty spherical rod ends and heat treated high alloy steel tapered shafts. Highly recommended for lowered vehicles or modified suspensions.

5S3Z-3A130-SL **\$159.99 Each**

STRUT CAMBER ADJUSTERS

These camber plates mount on your strut to give you the power to adjust your camber to either correct your lowered Mustang's alignment or fine tune for spirited driving. The unique patent pending interlocking tooth design prevents adjustments from "walking" under load like other designs and facilitates on-car adjustments without multiple inserts. Constructed from 7075-T6 billet aluminum with heat treated high alloy steel adjusters.

5S3Z-3B226_8-SL **\$199.99 PAIR**

EXTERIOR

BILLET HOOD PINS

Exclusively designed by Shelby Performance Parts and Scott Drake for the 2005-08 Ford Mustang with stock hood. This is more than a set. It's really a system. Extensive engineering has gone into making our hood pins function as well as they look. The 6061-t6 billet aluminum plates are precision-machined then brushed before being clear anodized. Specially designed Delrin bushings secure the stainless steel lynch pins to the plates and prevent scratching and wear. Vinyl covered stainless steel lanyards keep track of the lynch pins when the hood is open. The adjustable hood pins and retaining nuts are highly polished stainless steel to catch the eye and provide years of service. Special mounting brackets are also included. *Permanent modifications to the hood and radiator cover panel are required. See below for GT500 applications.*

CS6 HOOD

Designed by Shelby Automobiles, this hood gives your car the appearance of a high performance machine. It's the same as the hood used on the CS6 & CS8 Shelby's and Shelby GT-H. Made out of fiberglass to keep the weight down. *CS6 Hood Grille not included. Note: CS hood vent is non-functional. CS Hood is untrimmed & Unfinished, paint to match.*

CS6-001 **\$749.99**

CS6 HOOD GRILLE

This simulated hood grille really finishes off the CS6, CS8 and GT-H hood. It gives the hood a real performance look.

CS6-011 **\$64.99**

CS6 SIDE SCOOPS

These side scoops give your car the appearance of a high performance brake kit without the cost. Made from urethane and installed with double backed tape. *Shelby CS side scoops are unfinished, paint to match.*

CS6-004 **\$184.99 PAIR**

CS6 FRONT FASCIA

Designed by Shelby Automobiles, this Fascia will give your Mustang the aggressive look of a Shelby CS. Made out of high-impact urethane to be lightweight and durable. Requires CS-007 upper grille insert and stock V6 grille housing. The lower grille is not included. *Front Fascia is Unfinished, paint to match.*

CS6-21020 **\$499.99**

CS6 REAR FASCIA

This lightweight, durable, plastic rear fascia is the same one used on the Shelby CS6 cars. It is designed for use with dual exhaust and looks great in combination with the other CS6 body parts. Not required for CS8. *Rear fascia is unfinished, paint to match.*

5R3Z-17K835-BAA **\$349.99**

CS6 LOWER GRILLE INSERT

This grille is the perfect compliment to our CS6 front fascia. It will add the finishing touch that your CS6 deserves.

CS6-268 **\$99.95**

CS UPPER GRILLE INSERT

This metal grille insert will give your front end the look of a Shelby CS6 and CS8. This grille has spaces to put driving lights to complete the look. *This grille requires modifying your factory grille for installation.*

CS6 Grille Insert

Driving lights and Shelby letters not included.

CS6-007: Fits stock CS6 front fascia (CS6-21020) & V6 Mustang front fascia. Requires factory V6 grille to install.

CS6-009: Fits stock GT front fascia only

\$159.99

CS6 Stock Grille Kit

Complete kit for changing the entire look of your front grille. Includes: Grille, driving lights & light brackets, Shelby letters & letter backing plate. *This grille requires modifying your factory grille for installation.*

CS6-007-KIT: Fits stock CS6 front fascia (CS6-21020) & V6 Mustang front fascia. Requires factory V6 grille to install.

CS6-009-KIT: Fits stock GT and Cal Special front fascia only. Requires factory V8 grille to install.

\$439.99

DRIVING LIGHTS FOR UPPER GRILLE

These PIAA lights will brighten up your front end, and complete the look of your Shelby CS grille. These lights were designed exclusively for Shelby.

CS6-008 **\$214.99**

SHELBY UPGRADE KIT

The looks and performance of our CS6 Shelby package for the V6 Mustangs has been so well received that we are now offering V8 version appropriately named CS8. They cosmetically look the same when finished. Two options available for both engine sizes. First there is the Turn 1 version which Sounds, Handles and Stops as good as it looks. But if you want it as Fast as it looks, all you need to do is go to Turn 2 which includes a Shelby Supercharger by Paxton. We provide the complete kit, just add labor and paint and you will have a High Performance Mustang with a distinct Shelby flare.

Note: Prices do not include paint or labor.

This billet aluminum dash plaque is only available to customers who purchase the entire kit. Cannot be purchased separately.

TURN 1 UPGRADE KIT INCLUDES:

- ◆ CS Hood
- ◆ CS Hood Grille
- ◆ CS Upper Grille Insert
- ◆ PIAA Driving Lights for Upper Grille
- ◆ CS6 Front Fascia & Lower Grille
- ◆ Stainless Steel Hood Pins with Brackets

SHELBY COBRA SNAKE EMBLEMS

These emblems are 4.25" x 2.5", exact detail chrome plastic. Original equipment for the 2007 GT500.

Adhesive backed for simple installation.

Description	Part Number	Price
RIGHT & LEFT FACING	M-1447-C	\$74.99 PAIR

We also have smaller 2.75" x 1.75" emblems available for custom applications.

Description	Part Number	Price
RIGHT FACING	F6ZZ-16228-A	\$12.95
LEFT FACING	F6ZZ-16228-B	\$12.95

4.6 RUNNING HORSE EMBLEM

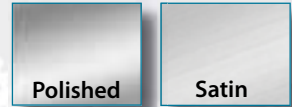

Like all our emblems, these feature a high-quality chrome finish, and correct color shades in the tri-color bar. Each emblem is available in right or left facing versions. Includes fasteners.

Description	Part Number	Price
RIGHT HAND EMBLEM	C7ZZ-16228-4.6	\$17.95
LEFT HAND EMBLEM	C7ZZ-16229-4.6	\$17.95

TRIM ACCENTS & EMBLEMS

Most of our trim accents are available in either a brightly polished aluminum finish (a perfect match to chrome) or a brushed satin finish (a perfect match to billet aluminum).

ANTENNA BASE COVER

A simple way to add style to your new Mustang or Shelby. This cover is made from stamped aluminum with a brightly polished or brushed satin finish. 3M mounting adhesive included.

Description	Part Number	Price
POLISHED	5R3Z-18A927-AC	\$10.95
SATIN	5R3Z-18A927-AL	\$10.95

SHORTY BILLET ANTENNA

This 8" antenna is machined from 6061-T6 billet aluminum and clear anodized for a great look. Looks great with our other billet or satin-finish aluminum trim pieces. Complete the look with our satin aluminum antenna base cover (above). Note: Does not include the antenna base cover shown in the picture.

Description	Part Number	Price
8" ANTENNA	5R3Z-18813-8BL	\$24.95

WASHER NOZZLE COVERS

Cover up those boring washer nozzles. These covers are made from stamped aluminum with a brightly polished or brushed satin finish.

Requires silicone adhesive for mounting. Will not fit CS6, GT-H, or Super Snake hood.

Description	Part Number	Price
POLISHED	5R3Z-17603-AC	\$9.95
SATIN	5R3Z-17603-AL	\$9.95

BILLET FUEL DOOR

Get the Race inspired look for your car with our bolt in fuel door. Low profile design looks clean and mean. Made from 6061 billet aluminum and either clear anodized or black

E-coated for corrosion protection. Stainless steel countersunk hardware adorn the outer ring. Black version coming soon.

Description	Part Number	Price
SHELBY, CLEAR ANODIZED	5S3Z-66405A26-B	\$149.95
PLAIN, CLEAR ANODIZED	5R3Z-66405A26-B	\$109.95
SHELBY, BLACK	5S3Z-66405A26BK	\$149.95

SHELBY
CARROLL SHELBY WHEEL COMPANY, INC.

SHELBY RAZOR SERIES 198S

This beautiful wheel is standard on all CS6 and CS8 Shelby Cars. It is available in 3 different colors to match virtually any color combination you choose. This precision machined alloy wheel features the Shelby script in one of the spokes and includes Shelby center caps. Each Razor wheel is available in 17, 18, or 20 inch sizes to fit almost any tire and suspension combination you can imagine.

When ordering add 5 to the end to the part number for 5.5" backspacing, 6 for 6" backspacing or 7 for 6.5" backspacing. Not all sizes are stocked in our warehouse, these will be drop shipped directly to you from American Racing.

18" wheels will not fit GT500

On stock applications we recommend 6" backspacing. Requires special lugnuts sold separately part #5R3Z-1012-RZ \$1.25 ea.

SHELBY FORGED 20X9	8S3Z-1007-9	\$494.99 ea.
SHELBY FORGED 20X10	8S3Z-1007-10	\$499.99 ea.

About Alcoa Forged Alloy Wheels: Alcoa Wheel Products designed, engineered, tested and produced the 18" version of the aluminum wheel for the Shelby GT500KR to match the performance, appearance and heritage of this legendary muscle car. Alcoa one-piece forged wheels have been tested and proven to be 423% stronger than steel wheels and more than twice as strong as cast wheels in comparable load crush testing. Forging aligns the metal grain in a uniform direction along the contours of the wheel, increasing strength. This wheel developed exclusively for Shelby is a must have for any Shelby lover.

About Alcoa Dura-Bright® Technology: Alcoa's new Dura-Bright® technology is a patented wheel surface treatment that provides sophisticated style that is easy to maintain. It is not a coating or a finish, but a proprietary surface treatment that penetrates and reacts with the aluminum thus becoming an integral part of the wheel. The revolutionary process resists peeling, cracking and corrosion. Automotive News recently awarded Alcoa Dura-Bright® technology as a winner in the prestigious 2007 PACE (Premier Automotive Suppliers Contribution to Excellence) Award competition.

ALCOA FORGED WHEEL HUBCAPS

These hubcaps were developed exclusively for the Alcoa Forged wheels that we designed for the GT500 upgrade package. They feature the Shelby logo in the center of the unique designed cap. These are sure to turn heads. Sold in sets of 4.
 7S3Z-1130-SHLBY **\$124.95 SET**

SATIN SHIFT BOOT TRIM

Compliments the rest of the aluminum trim in your Mustang. This shift boot trim is stamped from aluminum and given a clear anodized finish. Note: When buying the machined Billet Cup Holder Trim we recommend you purchase the machine Billet Shift Boot Trim because of the close proximity, as this will give you a perfect match. *3M adhesive mount included.*

Description	Part Number	Price
SATIN	5R3Z-7262-AL	\$19.95

BILLET SHIFT BOOT TRIM

Compliment the rest of the aluminum trim in your Mustang. Our billet shift boot trim is machined from high quality 6061 billet aluminum and given a clear anodized finish. A perfect match to our Billet Cup Holder Trim. *3M adhesive mount included.*

Description	Part Number	Price
BILLET	5R3Z-7262-BL	\$69.95

CUP HOLDER TRIM

Bring out the most in your interior with this Billet Cup Holder Trim. Machined out of 6061 billet aluminum, and clear anodized. Note: If ordering Shift Boot Trim as well we recommend the Billet version over Stamped version for a perfect match.

Description	Part Number	Price
BILLET	5R3Z-6304490-BL	\$59.95

MAP LIGHT ACCENTS

Available with pre-drilled holes for cars equipped with Active Anti-Theft.

Compliment the rest of the aluminum trim in your Mustang. Our map light trim is made from stamped aluminum, and features a brushed satin finish to match all our other satin and billet interior trim accents. Includes two button accents and long accent strip. Shelby, Mustang or Plain versions. Available with holes for use with active anti-theft, or standard without holes. *3M adhesive mount included.*

SHELBY ARMREST COVER

Shelby and Cobra Snake Logo

Cobra Snake Logo

GT Mustang Logo

Mustang Running Horse Logo

Creates eye appeal in the right place. Shelby and Snake logo is embroidered in silver. Like our headrest cover, this simulated leather cover with stitched seams adds extra detail. Designed to attach over existing cover. Also available with GT Mustang Logo, or Mustang running horse logo.

Installation instructions included. Note: proper installation requires using adhesive to mount cover over your existing pad, doing this will cause permanent damage to your existing pad.

Description	Part Number	Price

AUTHENTIC CARROLL SHELBY SIGNED DASH PLAQUE & SILL PLATE INSERTS

The ultimate Shelby accessory, exclusively for Shelby GT-500 owners! This dash plaque is made from solid 6061 billet aluminum construction, from the same supplier that builds "Dash Plaques" for Shelby Automobiles. However, this one features something really special that all the others don't, a genuine Carroll Shelby signature, signed by the man himself! Kit also includes 2 sill plate inserts made from 6061 billet aluminum. **Not available for regular production Mustangs. Allow 8-10 weeks to receive Dash Plaque.**

Attaches between air registers with 3M performance adhesive stripes. These are available custom order, and replace your Shelby's original dash plaque.

Certificate of Authenticity included.

GICLEE PRINTS & MAGNETS

Giclee (pronounced "zhee-clay") is a French word meaning "a spraying of ink". With the advent of giclee, the art of reproducing fine art has become even more precise. Giclee's have the highest apparent resolution available today -- as high as 1,800 dpi. In addition, since no screens are used, the prints have a higher apparent resolution than lithographs and a color range that exceeds that of serigraphy. Displaying a full color spectrum, giclee prints capture every nuance of an original and have gained wide acceptance from artists and galleries throughout the world.

PERFORMANCE PARTS

Shelby Automobiles, Inc. and Scott Drake Enterprises, Inc. are both synonymous with Mustangs, and now we have joined forces to provide Mustang enthusiasts with the ultimate in Mustang performance parts and accessories. Our close proximity in the Las Vegas valley provides us with a unique opportunity to develop, test, and produce new parts in a quick and efficient manner. Shelby Automobiles, Inc. and Scott Drake Enterprises, Inc. have experienced engineers working together with professional race car drivers to develop performance parts for both on the track and on the streets. Scott Drake's state of the art equipment such as rapid prototypers and 3D scanners ensure the most accurate parts available on the market, while Shelby Automobile's access to the Las Vegas Raceway allows for every part to be rigorously tested to meet Shelby's standards of quality and reliability. Together as Shelby Performance Parts we will be dedicated to providing the Mustang community with the highest quality, best performing Mustang parts on the market.

We've earned our stripes!
